

Movement Magic

In every story, you can be a superhero along with Tom! The Tree Fu Tom spells have been designed to help in the development of key movement and co-ordination skills. Practising these movements will benefit all children, including those with dyspraxia and other developmental coordination disorders. To help support this, each one of our books contains at least one spell, with the text to describe the moves as well as image to help too!

Also, keep an eye out for the 'trace the trail' activities too. Following the dotted line with their finger will help to develop your child's fine motor skills.

If you would like to find out more about how Tree Fu Tom can help to develop your child's movement skills, visit
